IMPORT · EXPORT · WHOLESALE DISTRIBUTION

SHARJAH, UNITED ARAB EMIRATES

Who we are

Al Attiyah LLC is a Sharjah-based trading company working in the import, export and wholesale distribution of fast-moving consumer goods.

We supply the products a professional kitchen and a busy shelf go through every week — olive oil and olives, mayonnaise and dressings, sauces and condiments, tomato products, canned fish and meat, pulses and spices, cereals, beverages and confectionery — in retail packs, catering packs and bulk formats.

Our customers are hotels, restaurants and caterers, supermarkets, wholesalers and re-exporters across the Middle East, Africa and Europe. We consolidate mixed containers so a buyer can take twenty lines in one shipment instead of chasing twenty suppliers.

“We believe quality comes at a cost.”

That is not a slogan about being expensive. It means we would rather hold a specification than shave a cent off it — the same oil percentage, the same drained weight, the same carton, shipment after shipment. A kitchen that changes its mayonnaise every quarter is a kitchen with a problem.

Where a buyer wants the range under their own label, selected lines are available for private label, subject to minimum quantities per SKU.

40 PRODUCT CATEGORIES	424 LISTED PACK FORMATS	13 COUNTRIES OF ORIGIN	50 g – 10 L SACHET TO JERRICAN
---------------------------------	-----------------------------------	----------------------------------	--

Contents

How we work

Mixed containers

Orders are consolidated across categories, so one container can carry olive oil, mayonnaise, pulses and canned fish together. Buyers who cannot fill a container on a single line can still buy a full range.

Pack formats

Most lines run in three formats: retail, catering and bulk. A hotel takes the 3.78 litre jar, a supermarket the 300 gram bottle, a manufacturer the 5 kilogram tub — same specification across all three.

Documentation

Certificate of origin, health certificate, halal certificate where the category requires it, and full ingredient and nutrition declarations for label registration in the destination market.

Private label

Selected lines can be produced under a buyer's own brand. Artwork, label compliance for the destination market and minimum quantity per SKU are agreed before production.

Terms

EXW, FOB and CIF quoted on request. Shipping from UAE ports, with consolidation for African, GCC and European destinations.

Specifications

Drained weights, oil percentages, brix and pack dimensions are available per line. Ask for the specification sheet with your enquiry and we will send it with the quotation.

Shelf life

Remaining shelf life at the time of shipment is confirmed on the proforma. Buyers who need a minimum residual life stated on the contract should say so at enquiry stage.

Samples

Samples of any listed line can be sent for evaluation before a first order, on the buyer's courier account or against a sample charge credited to the first shipment.
